

Wednesday@Bethany

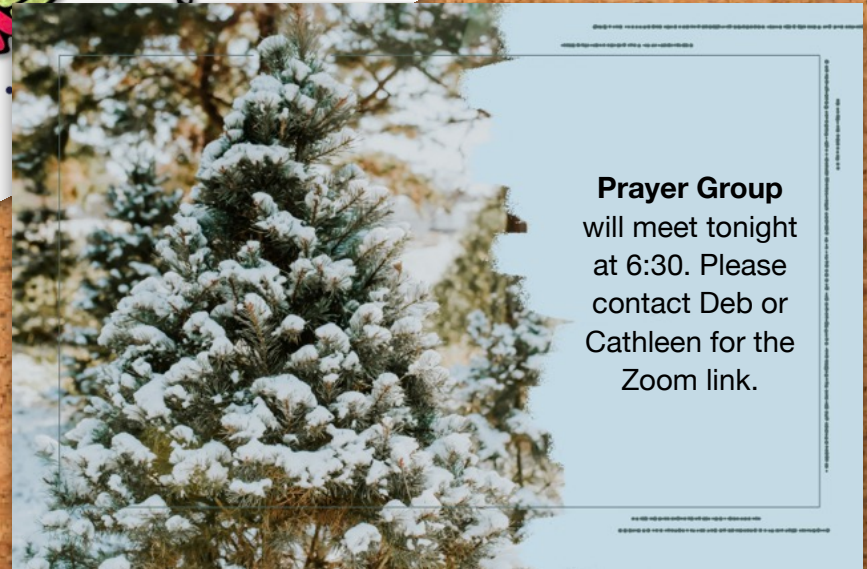

Presbyterian Disaster Assistance (PDA) has people already at work in Southern California and identifying urgent needs that can be met. The biggest need right now is cash that can be utilized in the region to purchase needed supplies and then begin to address long-term recovery after the fires have been extinguished. Both individuals and churches can make donations to PDA in response to this disaster.

This link will take you to the PDA page for the donation account being used to help with this response (PDA Fund:DR000165)
